Company Profile

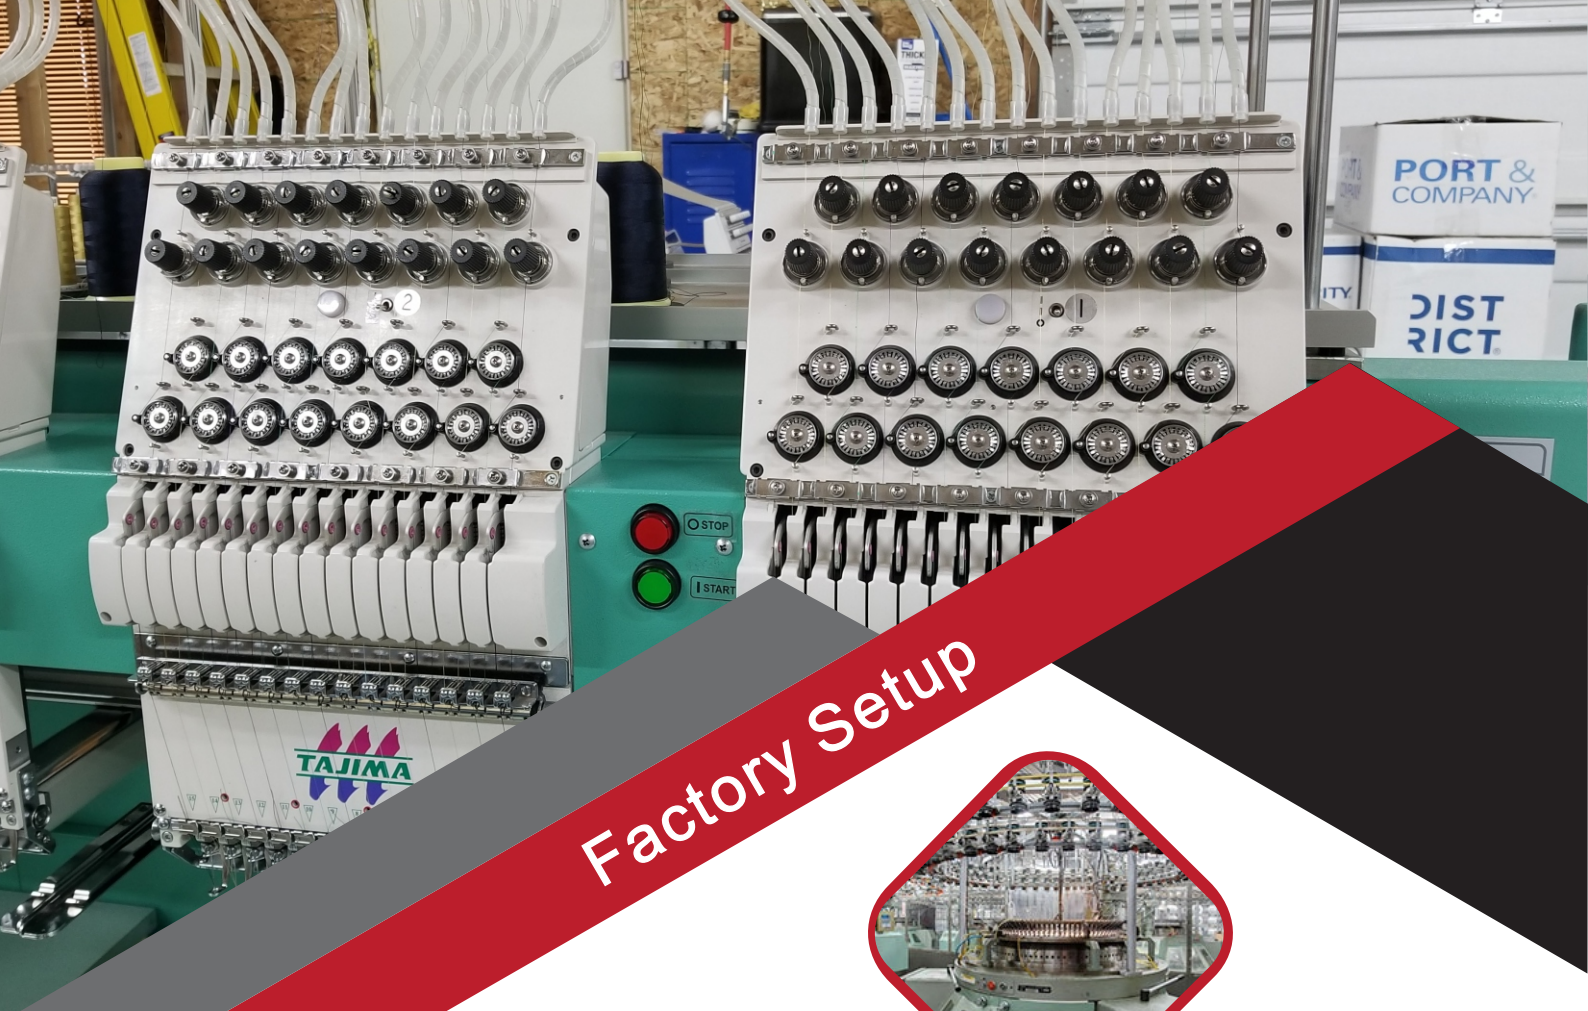

Over 10 Years Experience in This Industry

FS Garments is one of the leading garment manufacturing and exports firm located in Tirupur, India. Our company manufactures knitted garments for Men, Women and Children and Babies, we also specialise in manufacturing high fashion kids Apparel. With a professional and experienced team, we manufacture and export garments for leading brands across USA, UK, Europe and Australia.

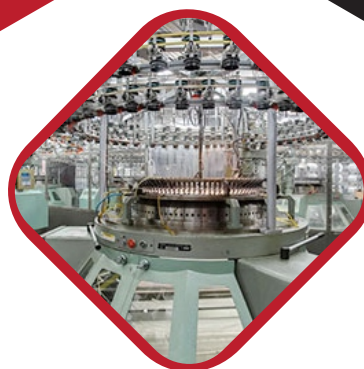

Quality Management

With quality being the most sought -after parameter in a product, we take extra efforts to deliver the best. A series of quality control tests are done and our dedicated quality control team ensures that the garments are thoroughly checked before they get finally packed. Complying with international safety standards and regulations, our products are carefully produced and stringently tested till the final stage.

Factory Setup

Knitting

The knitting unit is equipped with imported (Taiwan) knitting machines. All machines with lycra attachments are used for circular knitting and matsuya machines from japan are used for Collar knitting, to produce export quality products.

Soft Flow Dyeing

The Dyeing process is fully equipped with latest technology machines - KROMSAN - TURKEY - HTHP dyeing machines, with Baloon padding, Relax dryer machines. The dye-house has the capacity of handling 10-12 tons fabrics per day.

Embroidery

20 Head, 9 Colour, Computerised embroidery machines are used by this specialised division. Intricate embrodiery designs are created and edited by the computerised designing facility attached to this division.

Lay-cutting

Garments are finely cut with band knife and Lay cutting machines for appropriate precision. Each fabric is accurately measured to ensure perfect fit. The cut fabrics are then sewed skillfully to create suitable garments.

Factory Setup

Stitching

The division with 5000 Sq.ft area contains with 150 sewing machines and all are imported and latest machines from world leading machine manufacturer.

Checking

The manufactured garments are checked by our skilled workers. They make sure the quality of the garments is satisfactory and meets the international standards.

Ironing

The verified garments are steam - ironed to make them wrinkle-free and attractive.

Packing

The packaging unit takes care of the packing process. Here garments are neatly packed with utmost care. Once the packaging is done, the garments are sorted out for shipping.
